

Topic: Crimes reported by resident of the island		Author: Jeziel E. Torres Vazquez	Date: January 28, 2022
<p>Problem Background:</p> <ul style="list-style-type: none"><i>In Puerto Rico happen more than 1682 crime a year. These crimes come from murders, robberies, drugs and more.</i><i>Puerto Rico is an island that has many crimes committed every day. We can see this I the news, social media and more.</i><i>Right know the people only knows from the crimes that happened when they appear in the news. There is no platform in Puerto Rico that allows people to enter information about the crimes of which they have been victims or report more details so that other people can be warned and be more careful.</i>		<p>Countermeasures:</p> <ul style="list-style-type: none"><i>The Puerto Rico Police could see a pattern in certain areas and prevent crimes in the area.</i><i>Have a place where tourist and resident can have information about crimes in the island and be more careful and thoughtful about the places they are going to visit.</i><i>Help the residents have a platform where they can help the polices find and discovers patterns of places more vulnerable of crimes.</i><i>Have a connection with the police to help them fight crime and have more information of where the crimes are happening more often,</i>	
<p>Target:</p> <ul style="list-style-type: none"><i>Police could use this platform to connect places where crime happened more often.</i><i>Resident would help with information about crimes and where they happened.</i><i>Tourist can benefit from this, so they know where to be careful and be on the watch.</i>		<p>Check/Evaluate:</p> <ul style="list-style-type: none"><i>This would be successful if people feel safer in the areas where there are more crimes reported.</i><i>If the police acts and prevent crimes using the information provided by people.</i><i>The project would fail if the information given by the user is no real or is misleading.</i><i>To test this, it can be implemented in certain areas and towns where there is known to happened crimes often and see if people give good feedback about the crimes.</i><i>A survey can be implemented to see if people feel more save and can give feedback to the app.</i>	
<p>Causes:</p> <div><div><div>Problem: People don't have enough information about crimes that happened in their towns</div><div><div>People don't have a lot of time because of work or another time-consuming task</div><div>They don't watch a lot of TV or news to know what is happening in the country.</div><div>The people don't get a lot of information on what is happening</div></div><div><div>The news don't report all they crimes happening because there are so many</div><div>People don't get inform on what is happening in their towns and can't take precautions to be safe.</div></div><div><div>The police can't resolve or arrest the criminals.</div><div>Police often doesn't have resources necessary to make full investigation.</div><div>They don't have information on who is doing it and can't find them.</div></div></div></div> <td colspan="2"><p>Act/Standardize:</p><ul style="list-style-type: none"><i>To maintain credibility, people's answers can analyze and see how similar they are. This would help find patterns and verify that the information is valid and not invented.</i><i>Keep updating the website and make sure everything is working great.</i><i>Implement new features to help make information more reliable.</i><i>Try to implement the information and website in other formats and places so more people can use it and provided data to the website.</i><i>This can be expanded to add more features from different areas such as electricity, internet and more.</i></td>		<p>Act/Standardize:</p> <ul style="list-style-type: none"><i>To maintain credibility, people's answers can analyze and see how similar they are.
